Dear Sirs:-

I learn that you deal in old coins and I have some to write to you for information. Mr. Fleming one of our druggists has offered me a fair price for them but I concluded it was better to write to a dealer in such goods. I have a farthing with a ladys head Victoria D:G: Britt: Reg: Fd:

on one side the other has the words Farthing 1873 and a personage seated and a ship coming in. Another is ½ dime an eagle its claws grasping a branch. The legend above it E. Pluribus Unum. U. S. of America and 5 C. below. the other side has Liberty head. 1836 and 13 small stars. Another is a Canadian 5 cents. ½ dime 1889. Another an old copper penny with an indian head on. 1864. Another queer piece is the size of a farthing it has an eagle on one side its claws clutching a branch the other side has a reath inside of which are A and just below it are H M. no date or anything else. I also have one of those big old cents with Washingtons

head on but the date is entirely worn off. also ½ cent which is worn very badly. the date which can barely be seen is 1835. Will you please write me of what value the coins are and oblige

Yours Truly.
Mrs. P. Neff.

They are of no
value. All are
common
